### **Biography:**

Professor Ian O. Ellis BMedSci, BM MS, FRCPath Professor of Cancer Pathology, Nottingham University, Honorary Consultant Pathologist, Nottingham City Hospital, founder of PathLore and Medical Director of Medical Solutions plc.

He has been involved in the practice of pathology for over twenty years and has an international reputation in clinical and translational research in breast disease, particularly classification of breast cancer and evaluation of prognostic factors. Author of over 300 peer reviewed scientific publications, chapters in medical textbooks and specialist textbooks in pathology and an experienced lecturer being a founder member of the faculty of the Nottingham International Breast Education Centre.

He is a Fellow and a Specialty Advisor of The Royal College of Pathologists, Chairman of the UK National Co-ordinating Committee for Breast Pathology, Councilor of The European Society of Mastology, Steering Committee Member of The European Group for Breast Screening Pathology and Chairman of the Breast Pathology Working Group of the European Society of Pathology. He has acted as an advisor to the DoH, WHO and IARC.
